Environmental Policy

Electrical Waste Management Ltd. is involved in the national and international movement, transport, disposal and/or recovery of waste material. Electrical Waste Management Ltd. recognizes the requirement for environmental compliance. Prevention of pollution to air, water and land are part of all decisions, policies and practices within Electrical Waste Management Ltd. Electrical Waste Management Ltd. shall endeavor to work towards the following objectives:

1. Manage our operations with diligence and with the awareness that our goal is to protect the environment and prevent pollution, by employing the best control mechanisms, procedures and processes which are proven technologically sound and economically feasible.
2. Comply with relevant environmental legislation and corporate guidelines and provide self-monitoring to ensure compliance.
3. Publish the Environmental Policy internally, by communication to all employees and posting the document on notice boards, and externally to all interested parties on request.
4. Train our employees to achieve continual improvement in environmental performance; the starting point is to comply fully with all of the Irish waste management and environmental regulatory requirements
5. Focus on the primary environmental concerns:- the management of waste and energy efficiency in offices and management of environmental issues on site projects and special projects.
6. Measure environmental performance by conducting regular environmental audits and assessments of compliance with the Environmental Policy, relevant environmental legislation and the requirements of the company.
7. To promote the theory of Environmental awareness to all customers, contractors, and suppliers, and to provide them with sufficient information to effectively comply with Electrical Waste Management Ltd's requirements.

Quality Policy

It is Electrical Waste Management Ltd's philosophy to satisfy our customers' needs, by consistently meeting their requirements in accordance with relevant national and international regulations for movement, transport, disposal and / or recovery of waste material.

We see each contract as a partnership between the customer and Electrical Waste Management Ltd.

We strive to continuously improve our services and the processes by which we deliver them, in order to build customer commitment, confidence and loyalty.

In addition we strive to provide a positive, and safe working environment, which will produce a customer orientated, success focused, staff.

To facilitate achievement of these objectives we have installed bespoke procedures for all areas of our business. It is our intention to install a full quality management system based around our operating procedures and to seek appropriate accreditation such as ISO 14001.

We train our staff to conform to the standards and procedures documented for our operations and to strive, to systematically improve on them.
